**Thesis Title of Basic Medical  
Science(Parasitology)PhD (1989):**

***Immune Response of Patients with Acute Schistosomiasis***

NB : The practical techniques of the thesis were performed in the Immunology Department of Naval American Medical Research Unite ~3(NAMRU- 3) in Cairo in 1986-89 under the main supervision of Prof. Dr Mohamed Karim Ahmed Kamal

The studies included about 500 school pupils examined by ELISA technique to detect Anti- schistosomal antibodies Ig M and IgG then the cellular immune responses of early (Acute) and chronic schistosomal cases were evaluated by Lymphoblast transformation assay.

***Essay Title of Clinical Pathology Master(1995):***

**Role of Lab in diagnosis of Hypertension**

NB The essay discussed the role of lab in diagnosis of hypertension where the most of cases with unknown etiology

**General Speciality :**Parasitology,

**Specific Speciality :** Schistosomiasis, Toxoplasmosis and diagnostic techniques.

## ***Language skills***

Language	Reading	Writing	Speaking
English	Excellent	Excellent	Excellent
Arabic	Excellent	Excellent	Excellent

## ***PhD/MSc Supervision***

- 1) Fascioliasis Among suspected cases ,in Qaluobia, **MSc.**, Completed in 1999.
- 2) Interlukin-12 in Toxoplasmosis cases, **MSc.**, completed in 2006.
- 3) Specific immune complexes in experimental schistosomiasis, **M.D.**, Completed in 2001.
- 4) Immunological studis on Fascioliasis ,**M.D.**, Completed in 2003.
- 5) Real time ( RT - PCR ) Polymerase chain reaction and direct stool examination techniques in diagnosis of Giardia lambila infection, **MSc.**, Completed in 2010.

6) Toxoplasmosis and HCV coinfection among Egyptian females in child bearing period, **MSc.**, Completed in 2010

### ***List of publications***
