Clinical Rheumatology & Rehabilitation experiences

- In Benha university hospital:
 - This is University hospital with more than 4 hundred beds.
 - Rheumatology, Rehabilitation and Physical medicine department which have musculoskeletal ultrasound unit, pediatric rheumatology unit and Nerve conduction study & electromyography unit. I have 7 years' experience in that place.
- Dealing with rheumatological emergencies, making diagnosis, making admission and prescribing treatment under supervision of my consultant.
- Observing patient in intensive care units and in the ward, follow up their treatment and follow consultant constructions.
- Doing Nerve conduction study & electromyography for patients (diagnosis of nerve and muscle affection).

- Doing musculoskeletal ultrasound for diagnostic and interventional treatment.
- Observing children in pediatric rheumatology unit, follow up their treatment and follow consultant constructions.

Courses and training

Annual Conference of Benha rheumatology department in collaboration with Egyptian society of Rheumatology and clinical immunology.

- Annual meetings of Benha teaching hospital in collaboration with Egyptian society of Rheumatology and clinical immunology.
- Egyptian school for musculoskeletal ultrasonography scientific days of joints in depth.

Educational Resources and Conferences:

- ACR Guidelines
- EULAR Guidelines
- MEDSCAPE WEBSITE.
- Annual Egyptian society of rheumatology conference, this is one of the biggest rheumatology conferences is being held in Egypt.
- Annual Conference of Benha rheumatology department.

Research

- ***The frequency of musculoskeletal manifestations among psoriatic patients. Is an essay in 155 pages Study of musculoskeletal manifestations and correlation with extent of psoriasis and/or nail affection in patients with psoriasis and this and was published in Benha Journal of Applied Sciences (MD thesis)***
- ***Association between microalbuminuria and metabolic syndrome in patients with rheumatoid arthritis. Is an essay in 135 pages Study of metabolic syndrome elements and correlation with microalbuminuria in patients with rheumatoid arthritis and this was published in Egyptian rheumatology and rehabilitation journal. (MSc thesis)***

Membership in scientific societies

2015 to present

Membership of Egyptian society of rheumatic diseases.

Teaching

- I was responsible for the training of junior Rheumatologists at musculoskeletal ultrasound unit, pediatric rheumatology unit at Benha University Hospitals for over 7 years now.
- I was responsible for the training of juniors of Rehabilitation & Physical medicine at units of NCS&EMG unit and Shock wave unit, at Benha University Hospitals for over 7 years now.
- I participated in organizing teaching and delivering teaching sessions for junior colleagues at Benha University Hospital in the last year in my residency (clinical rounds, grand rounds, one-to-one teaching in rheumatology ward, case scenarios and clinical situations).
- I was included in organizing meetings, conferences and case presentations of the Rheumatology department at Benha University Hospital.

Teamwork

- As I am a registrar, my duty is to learn and guide my junior doctors and discuss the diagnosis and management of interesting cases.
- Helping junior doctors to set a strategy to finish their postgraduate degree in Rheumatology, Rehabilitation and Physical medicine.
- Discussing medical ethics and how to deal with difficult situations and asking relatives.
- My senior used to call me a team player rather than a team leader, as I used to listen, give good advice and eventually DO the work.
